Oh no. Sorry looks like Brick and Dans e mails did not get in there on the e mail below. My apologies. I am still waiting on the tribes comments. If I do not receive any comments from the Tribes this week, I will send our internal comments to the Port on the AB memo, which include some of Ecologys comments that I feel are appropriate to include with Agency comments. This was the e mail, I had hoped had gone through last week.

Subject: WA State Dept of Ecology Comments

Brick and Dan -- Attached strictly for informational purposes are the Washington State Department of Ecologys comments on the Draft Anthropogenic Background Memorandum, submitted to EPA by the EWG. EPA plans to send the EWG comments, in the near future, on the Draft AB Memo that the EWG will need to respond to and address in order for the Memo to be approved by EPA. Formal comments from EPA may include some of the attached comments from the State of Washington, but for now these are again for informational purposes only.

Please let me know if you have any questions.

Regards,

Ravi
